

# **A systematic review of the genetic susceptibility to ototoxic hearing and tinnitus associated with platinum-based chemotherapy for cancer**

## **Host**

Nottingham NIHR Biomedical Research Centre

University of Nottingham, UK

## **Supervisors of the STSM**

Prof David Baguley (lead), Prof Deb Hall, Dr Derek Hoare

## **Goal of the STSM**

The mission will allow the researcher to gain experience in the planning and implementation of a systematic review involving tinnitus and hearing loss in a specific clinical situation. The final goal of the STSM is to collaborate on the implementation and publication of the systematic review.

## **What the STSM host offers**

- Experience of undertaking and publishing systematic reviews on clinical aspects of tinnitus
- Wide ranging translational research programme on hearing loss and tinnitus
- In depth research programme on ototoxic tinnitus

## **Requirements for the grantee**

- Basic understanding of human clinical genetics
- Proficiency in scientific English
- Duration 2-3 weeks
- Best time: mid October 2017
